ABOUT ME

I am a fresh graduate from BINUS University, majoring in Computer Science.

I have first-hand experience, having worked as an intern.

I have been involved in Front-End development. Having worked in several fields before, I am interested in getting a position in UI, Front-end, IT Support, but not limited to those positions only, because basically I am a curious person and willing to spend a lot of time to learn something new. And finally, I strongly believe that good communication is the key to success in every aspect of life.

A. KOMPETENSI LULUSAN

Keterampilan Kerja Khusus

1. Lulusan mampu membuat rancangan aplikasi piranti lunak dengan menerapkan prinsip-prinsip perancangan sistem basis data untuk memecahkan masalah terstruktur dan semi terstruktur
2. Lulusan mampu merancang solusi aplikasi piranti lunak berdasarkan analisis permasalahan yang dapat diselesaikan dengan pendekatan terstruktur dalam bidang informatika
3. Lulusan mampu melakukan pengkajian tren teknologi terbaru dalam bidang informatika untuk memberikan alternatif solusi pengembangan piranti lunak

Keterampilan Kerja Ciri Program

1. Lulusan mampu menghasilkan aplikasi piranti lunak yang dapat memecahkan permasalahan yang terjadi di industri dalam bidang informatika
2. Lulusan mampu menghasilkan piranti lunak basis data dengan kompleksitas tinggi yang aplikatif dalam memecahkan masalah yang terjadi di industri
3. Lulusan mampu menghasilkan piranti lunak berbasis jaringan komputer yang aplikatif untuk permasalahan industri
4. Lulusan mampu menghasilkan piranti lunak pintar dengan menggunakan algoritme kecerdasan buatan
5. Lulusan mampu menghasilkan piranti lunak berbasis multimedia yang aplikatif untuk memecahkan permasalahan di industry

A. STUDENT OUTCOMES

Specific Student Outcomes

1. *Graduates will be able to create software application design by applying the principles of database system design to solve structured and semi-structured data*
2. *Graduates will be able to design software application solution based on problem analysis which can be solved with structured approach in informatics area*
3. *Graduates will be able to assess technology trend in informatics area to deliver an alternative solution of software development*

Program Characteristic Student Outcomes

1. *Graduates will be able to produce software which can solve the problems in informatics industry*
2. *Graduates will be able to produce database software with high applicative complexity to solve problems in industry*
3. *Graduates will be able to produce computer network based software that applicable in industrial problems*
4. *Graduates will be able to produce smart software using artificial intelligence algorithms*
5. *Graduates will be able to produce multimedia-based software applicable to solve the problems in industry*
